SALTO WECOSYSTEM

Empowering smarter access

Gantner revolutionizes business operations with innovative solutions, creating a unique user experience.

Gantner, as part of the SALTO WECOSYSTEM, in collaboration with our ticketing specialist Vintia and access control expert Salto, offers a seamless, integrated solution for every facility and requirement – all from a single source.

SALTO WECOSYSTEM is a community born out of a common goal: empowering access, in every sense – access to places, experiences, and opportunities. Our global expert teams collaborate closely, driven by a dynamic spirit and shared passion, ensuring that all components of the SALTO WECOSYSTEM are fully interconnected.

About Gantner

A pioneer in RFID/NFC based solutions for seamless, reliable, and secure deliverables.

Gantner – Your Partner

Founded in 1982, Gantner is a pioneer in RFID/ NFC based solutions used across various industries. A Gantner system enhances the member experience in a variety of ways.

As a leader in the fitness industry, Gantner provides everything from check-in and access control to smart locker systems and cashless payment solutions – all from a single source.

With thousands of installations worldwide, a proven portfolio of products and solutions, and experienced teams on-site globally, Gantner is the leading specialist in contactless RFID/NFC technology for the fitness industry.

Everything from a Single Source

Full-Service

With Gantner, you're in the best hands. Our solutions are defined by innovation, durability, and industry leading reliability.

Together with our partners, we support you every step of the way. From planning and solution design to implementation with our own hardware and software, all the way through to ongoing service, we're happy to assist you worldwide.

>> Since installing a Gantner system, our processes have been simplified, and our employees' workload has been significantly reduced. Our members are thrilled about the added convenience. It is the perfect solution for us. <<

Magnus Frennmark
CEO Fitness24Seven

Consultation

We analyze your individual requirements and work with you to develop the ideal solution for your club.

Design

Our experts develop a tailored concept that carefully considers all technical and economic factors.

Installation

Our experienced team and partner network ensure a smooth and professional installation.

Commissioning

After the installation, your new system will be commissioned to ensure its full functionality.

Service

Even after commissioning, we're here for you with personalized services, maintenance, and ongoing support.

Solutions

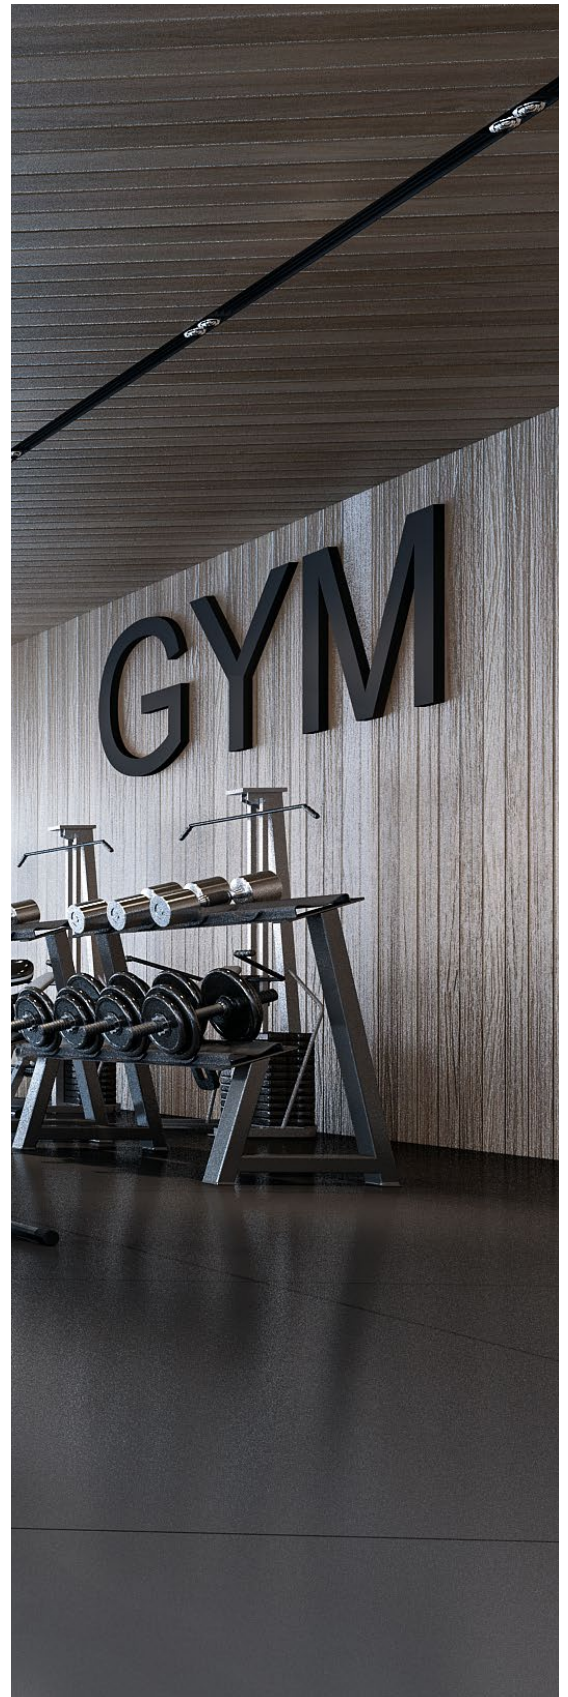

We offer thoughtfully designed, future-proof solutions that are perfectly tailored to your individual requirements.

High Expectations for the Industry

Diverse Challenges

Fitness clubs face numerous challenges: rising operational costs, high staffing demands, increasing competition, and the growing popularity of home fitness, all of which are putting pressure on the industry. At the same time, members expect greater flexibility, enhanced digital services, and a unique training experience.

From 24/7 access to mobile booking systems and cashless payment options, members expect modern, convenient, and secure solutions that enhance their fitness experience. To stay competitive, clubs must meet these demands and find innovative ways to improve efficiency, security, and member satisfaction.

The Solution

Digital Club Experience

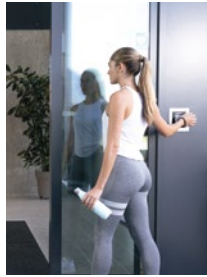

Gantner offers digital solutions in all areas a member utilizes in a fitness club - from parking to leaving the club, creating a unique experience for your members.

Secure and Fast Identification

Check-in and Access Control

With Gantner, check-in and access control are fully automated, secure, and fast – available 24/7 with no additional staffing required. Flexible installation options allow you to tailor to your needs, and members can check-in using various identification

methods. This gives you more time to focus on your members while ensuring that only paying members have access to your club.

Tap. Access. Go.

The Gantner SmartPass is a digital membership card in Google or Apple Wallet. Maximum convenience, maximum security, maximum efficiency.

Multifunctional

In addition to RFID/NFC credentials, such as wristbands and cards, QR codes can be scanned or displayed for a reverse QR code application on a terminal.

Perfect Synergy

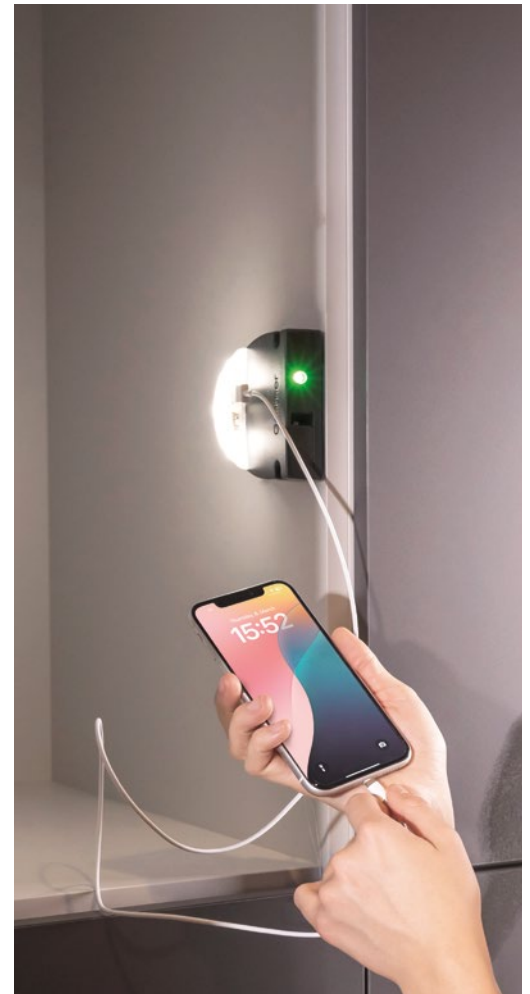

The Gantner solution is compatible with Salto access control and digital training equipment. One credential for all applications.

Security and Comfort for Larger Facilities

Centrally Supplied Locker Systems

Environmentally friendly and sustainable solutions with no batteries or maintenance costs are in line with modern demands. Thanks to the centralized management software, the eLoxx Suite, you can easily control occupancy, alarms, and access. Additionally, our centralized locker systems offer significant cost savings, enhanced security, and minimal administrative responsibilities. This ensures you stay in control at all times. The system is fully scalable, growing with your needs – from a simple solution to a complex system integrated into existing management systems.

Member comfort

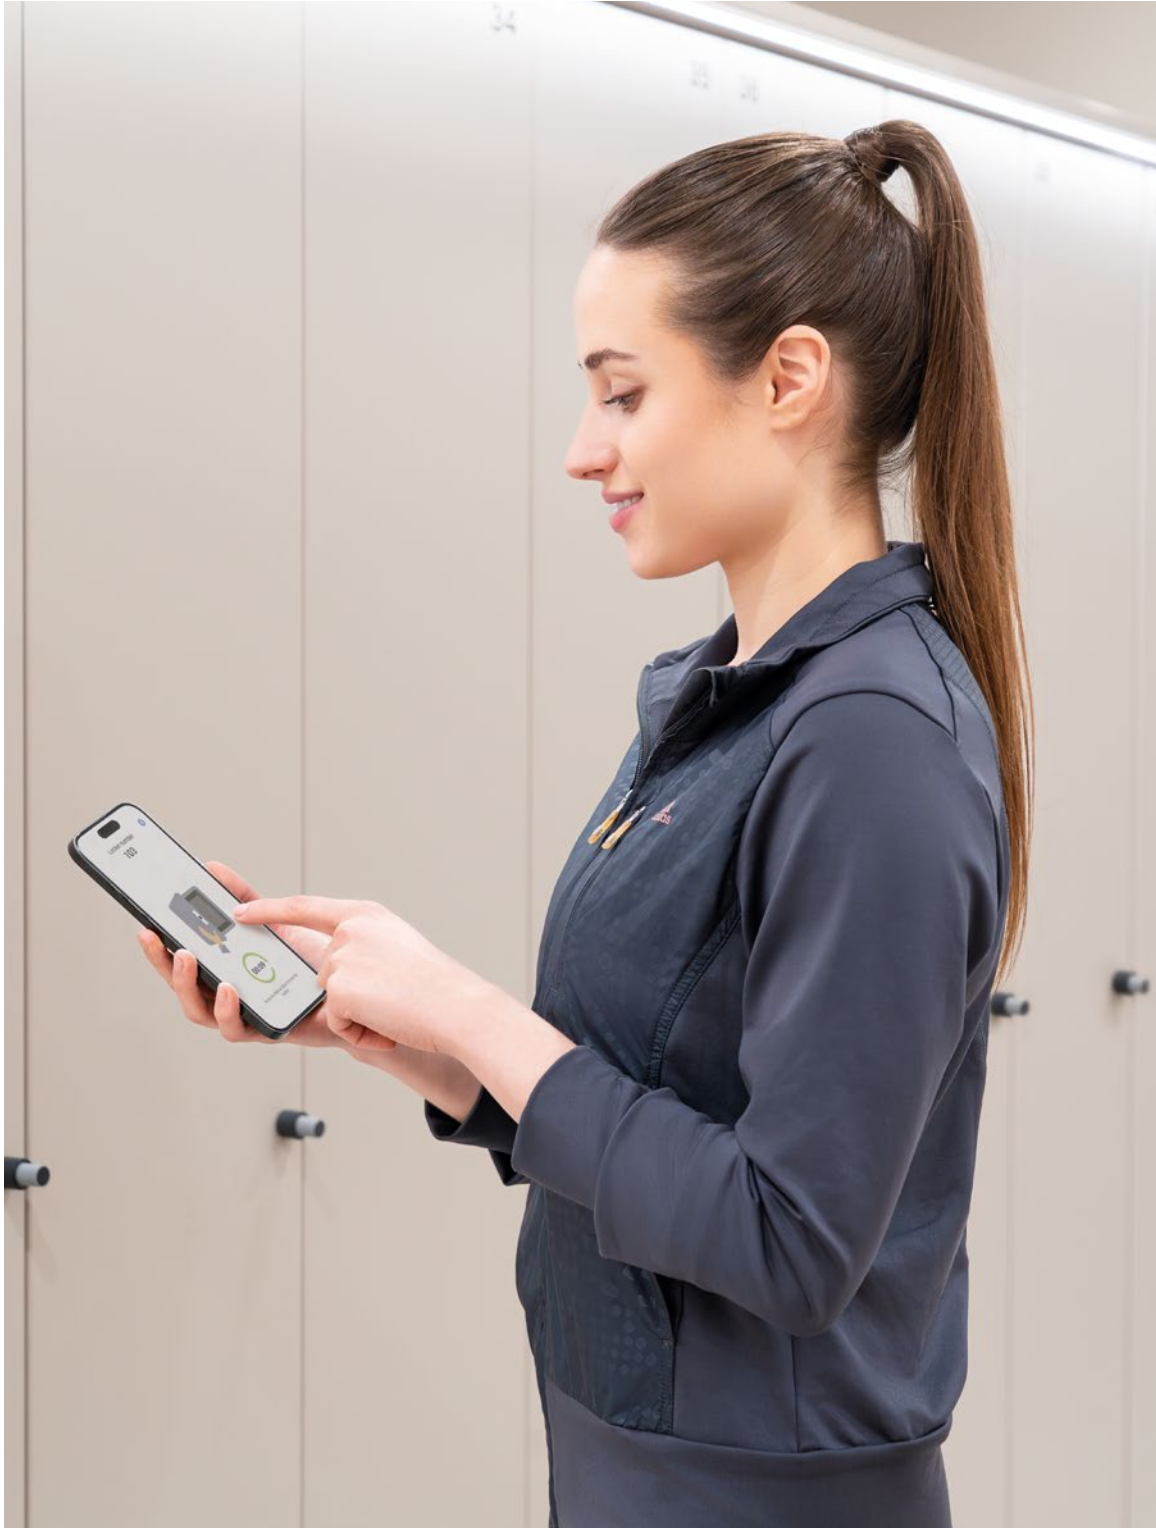

Easily choose an available locker at any time – the membership card becomes the key, providing maximum convenience.

Alarm mode

The integrated alarm protects both operators and members from forced entry and theft.

Cost savings

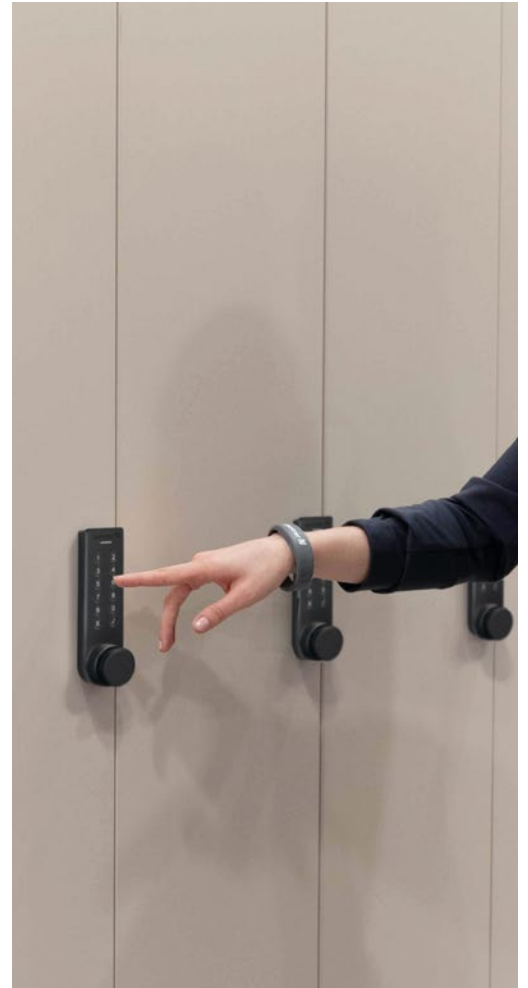

Thanks to optimized usage, fewer lockers are needed. The system operates maintenance-free and environmentally friendly – without batteries.

Security and Comfort for Smaller Facilities

Battery-Powered Locker Systems

Perfect for retrofitting existing lockers. Without wiring, your lockers can be operated via RFID credentials, app, or PIN code – the system adapts to your specific requirements. Battery-powered locker systems are especially suitable for small and medium-sized facilities.

Robust and durable

Durable design and battery life of up to 10 years.

Quick configuration

Locks are quickly and simply configured via the app, and bookings are easily accessible.

Easy retrofitting

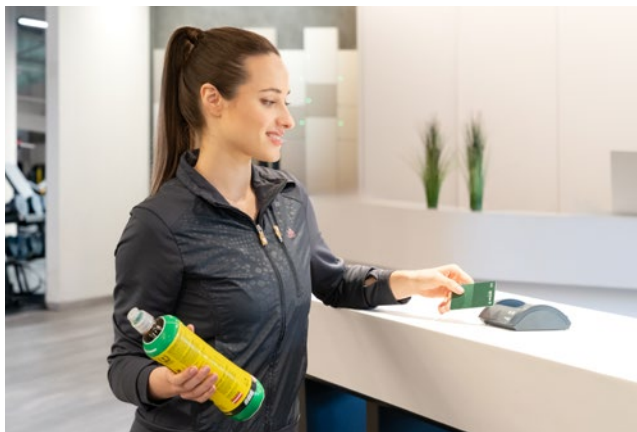

Compatible replacement for coin and key locks. Optionally wirelessly connected with centralized management software.

Convenient, Fast, and Secure

Cashless Payment

Cashless payment offers new opportunities for sales and additional business, without the need for cash or credit cards. Whether at a vending machine, drink bar, or shop, the convenience of cashless payment boosts sales, reduces staffing costs, and encourages spontaneous purchases.

24/7 without staff

Make sales available 24/7 through vending machines or self-service terminals.

Additional revenue

Cashless payment and self-service increase spontaneous consumption. Additionally, customer-specific promotions boost sales.

Member comfort

Cash stays secure in the locker, and payment is conveniently made via a datacarrier.

Products

Our high-quality products stand for innovation, durability, and exceptional performance – designed for maximum efficiency and reliability.
